

PRODUCT DESCRIPTION

- Fiber Optic Adapter Plates provide premise installers with the ultimate solution for creating cross- or interconnections within a fiber termination enclosure or distribution hub. These modular and easy-to-use fiber optic adapter panels are available in an assortment of styles and fiber counts to accommodate small or high-density fiber networking.

APPLICATIONS

- Available with SC, LC and ST type connectors in a wide variety of fiber counts to accommodate almost any fiber optic patching application
- Compatible with all Hyperline's fiber optic enclosures for simple, worry-free installation
