

PRODUCT DESCRIPTION

Hyperline faceplates with shutters are designed for maximum flexibility, durability, aesthetics and manageability. Equipped with collapsible shutters they allow you close/hide off unused ports. They are available in a variety of styles, colors and port configurations to meet all work area outlet application needs, and they provide for easy outlet identification. Measurements for a faceplate are 2.8" x 4.5".

MATERIALS

Enclosure	ABS-plastic, UL 94V-0
